

"Cind Electricity Distribution Limited carried out the **Installation of 300mm<sup>2</sup> Armoured Cable** for a **Dedicated 33kv Feeder Line covering 2.9 Kilometres** starting from **TCN Ogba Station** and terminating at our **MTN/Huawei Data Centre at 29 Ajao Road, Ikeja**. The company delivered the project in a timely manner without cost overrun. The Company also acted as the Community Project Consultant, working with all the Community Stakeholders to make the project a huge success. They contributed significantly and appropriately to our delivery of the Data Centre project."
